

Future-proof your skills with the **Artificial Intelligence Fundamentals** guided learning experience

Enroll at: <https://ibm.biz/Bdnn6n>

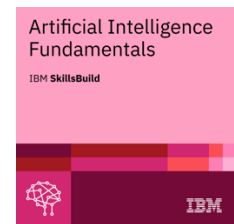

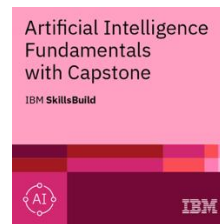

Foundational level | 4-week program | 16.5 hours
Self-paced (10 hours) + Instructor-led (6.5 hours) + Project (2 hours)
Pre-requisites: Basic computer literacy
Enrollment window: Jun 9th – Jun 27th, 2025
Course start: Jun 30th, 2025

For additional information, please check the [Frequently Asked Questions \(FAQs\) document](#).

Earn two industry-recognized Digital Credential and an IBM Certificate

Learners who successfully complete the programme receive two **Artificial Intelligence Fundamentals** Digital Credentials issued and verified by Credly and an IBM SkillsBuild Certificate.

Overview

Embark on a journey into the world of Artificial Intelligence with our foundational program. Delve into AI's fascinating history, explore its transformative impact on society, discover how AI makes predictions, understands language and images, and learns using circuits inspired by the human brain, and gain hands-on experience by building and testing a machine learning model in a simulated environment.

Our Guided Learning Experience (GLE) in Artificial Intelligence offers a structured and interactive learning environment. Engage with peers and instructors, participate in discussions, apply your knowledge on a capstone project, and receive real-time feedback to enhance your learning. The GLE format balances self-paced learning with scheduled live sessions, providing interactive learning, Q&A, and a supportive community.

Join us for an orientation session, instructor-led sessions and closing ceremony on the following dates:

Orientation session	1 st Instructor-led session	2 nd Instructor-led session	3 rd Instructor-led session	4 th Instructor-led session	Closing ceremony
Jun. 17 th , 26 th & 30 th	Jul. 2 nd	Jul. 9 th	Jul. 16 th	Jul. 23 rd	Aug. 12 th
